

Open Road

Logistics service designed for fair food

Reach more customers. Save time. Move your food.

Metro & Gippsland deliveries

Open Road is an alliance of social enterprises to build effective and affordable logistics services for local produce.

As farmers, makers and fresh food retailers we created this service with producers' needs in mind first. It's easy to use and adds value to your business. We help connect you to new markets and reach more people.

Open Road couriers are knowledgeable in the handling of produce and understand the nature of their fragility. Open Road vehicles are clean, well maintained, reliable and conform to cold chain food safety regulations.

With Open Road you will get the assurance of familiar faces that care about local food as much as you do. Access last mile logistics previously unavailable and a service that reaches regional customers and those in Greater Melbourne.

Reduce or remove the time you currently spend delivering produce and get the benefit of collaborating with on farm warehousing facilities as well as those of community owned food retailers and social enterprises.

Send your products on the Open Road with us

Pricing

Open Road is a regionally focused food delivery service and our pricing reflects this: we can send your goods for as little as \$15 from one regional depot to another.

The pricing guide linked below sets out how we calculate fees for the service; if you have a situation not covered in it or a logistics challenge for us to problem solve please contact us for a quote.
